Profile

Frontend developer with a design-led approach to building web interfaces. I work primarily in **React** and **Tailwind CSS**, translating ideas in **Figma** into clean, responsive, and considered products. I care about typography, spacing, motion, and the quiet details that make a product feel intentional. Currently pursuing an MCA while shipping live work — three websites deployed end-to-end, from concept to production.

Selected Work

Purrrrch — 2026 | purrrch.vercel.app A creative, identity-driven web experience designed and built end-to-end. Focused on tone, motion, and a distinctive visual voice.

- **Tools:** React · Tailwind CSS · ReactBits · Figma · Vercel

Crestfield Law Group — 2026 | crestfieldlawgroup.vercel.app A composed, editorial website for a professional services brand. Emphasis on typographic hierarchy, restraint, and trust.

- **Tools:** React · Tailwind CSS · Figma · Vercel

Lando Norris Portfolio — 2026 | lando-norris-portfolio.vercel.app A motion-rich tribute site exploring narrative scroll, transitions, and dynamic layouts.

- **Tools:** React · Tailwind CSS · ReactBits · Framer Motion · Figma · Vercel
-

Studies & Independent Projects

Shikshak Setu — 2025 A platform connecting rural schools with qualified teachers. Profile system, admin flows, and skill-based assessments.

- **Stack:** JavaScript · Java · SQL

Academic Allies — 2024 A productivity tool for students built around calendar-driven planning and reminders.

- **Stack:** JavaScript · Python · SQL

Hobby Buddy Matcher — 2024 A community platform pairing people by shared interests.

- **Stack:** HTML · CSS · JavaScript
-

Practice

- **Frontend:** React, JavaScript (ES6+), TypeScript, HTML, CSS
 - **Interface:** Tailwind CSS, ReactBits, shadcn/ui, Framer Motion
 - **Design:** Figma, Figma Make, design systems, responsive layout, typography
 - **Data:** SQL, MySQL, schema design, REST APIs
 - **Foundations:** Java, Python, OOP, Data Structures & Algorithms
 - **Tools:** Git, GitHub, Vercel, Netlify, VS Code
-

Education

Master of Computer Applications Vishwakarma University, Pune · 2025 – 2027

BBA in Computer Applications Modern College of Arts, Science & Commerce · 2023 – 2025 *CGPA 7.70*

Higher Secondary Symbiosis College of Arts & Commerce · 2021 – 2022

Approach

I work slowly enough to make decisions on purpose, and quickly enough to ship. I value clarity over cleverness, design literacy alongside engineering, and the discipline to keep things simple. Curious by default, careful with detail, and consistent in the work.
